

Finlande, Gulf of Botnia Seaside Glass Villas

From 170 €

Summer 2023 - Vinter 2023/2024 – Summer 2024

Seaside Glass Villas are in the SnowCastle area by the sea in Kemi, Sea Lapland. These villas are like modern iglus with glass roof and huge windows opening to the sea and northern sky. The entrance to the SnowExperience365, all-year-round snow & ice exhibition room, is included in your stay. Breakfast is served in a beautiful sea view restaurant in the main building.

Villas with incredible sea view offer a unique accommodation in Lapland. All villas have a glass roof so the view to the northern sky is amazing. Huge windows lets you be one with the nature and enjoy the beautiful sea view. During the midnight sun season you can cover the glass roof and windows with curtains, so the never setting sun will not bother your sleep. These glass villas with small kitchenette and bathroom are an excellent choice for the ones who want to enjoy the holiday in Lapland at it's best. The villas are located in the beautiful and quiet arctic surroundings by the sea, still close to all SnowCastle area services and small city center of Kemi. City center with restaurants, cafés, railway station and bus station, is just a short walking distance away.

The sea freezes over during the winter season and you can walk on sea ice in front of your villa. You can also book a snowmobile safari from the safari house next door and leave to the adventure straight from your door step. Icebreaker Sampo cruise transfers also leave from the SnowCastle area so we recommend to combine this bucket-list experience with your overnight in the villas. Experience the Finnish summer dreams, thrilling northern lights and winter wonderland adventures in our villas.

Seaside Glass Villas are a Finnish design and made of quality Finnish log wood. The material is ecological and long lasting. Log wood is also a safe material keeping the indoor air healthy even for those who have allergies. Villas are designed to sit well in Finnish nature. Les valeurs du tourisme durable sont mises en œuvre. The values of sustainable tourism are being implemented.
