

Finland, Vuokatti Stay at Arctic Lakeland Igloos

**From € 250
Year 2023/2024**

Memorable igloo experience on the shore of lake Sapsojärvi surrounded by the pure nature.

Arctic Lakeland Igloos is a new, premium accommodation service in Vuokatti where you can experience the embrace of nature in a comfort of a glass igloo. Admire the cloudless sky, the dance of rain droplets or the strength of a storm in a warm, cosy igloo. See the nightless night of Finnish summer, where it never gets dark or the darkest winter night where the only light is stars, and if you're lucky, northern lights !

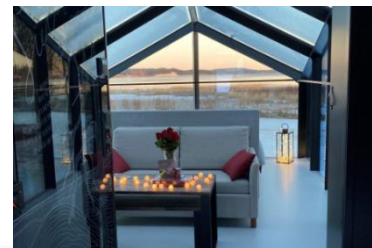

The igloos represent the combination of modern glass work and the aesthetic of Finnish nature. The igloos are masterpieces of Finnish design and handwork where the beautiful landscape is the main inspiration, and the furnishings are a tribute to the excellent Finnish quality.

Perfect your experience with a moment of relaxation in the outdoor hot tub! The hot tub is located right outside your igloo and is ready to be used instantly without extra effort. You can also feel a pure, traditional Finnish experience by booking the sauna. The sauna is heated up traditionally with wood and is in the same area as the igloos, on the shore of lake Sapsjärvi.

Three Unique Glass Igloos

Kaamos – Black Igloo

Kaamos is an igloo with a stylish matte black interior. The word kaamos stands for the most darkest time of the year in Finland, which has been the inspiration for this igloo.

Ruska – Copper Brown

Ruska igloo can be recognised for its gorgeous matte copper interior. Ruska-time in Finland occurs during autumn, when the trees glow in the colours of yellow, red and orange.

Lumi – White Igloo

Lumi is a beautiful matte white igloo, which has been inspired by the stunning snowy winter of Finland.

Facilities et Equipment

- Double bed (width 180cm)

- Final Cleaning

Also, a certain amount of coffee, tea bags, sugar and creamer are included in the price of the accommodation.

Good to know

- The igloo is ideal for two, but the sofa can be opened as an extra bed for two guests. There can be a maximum of four guests.
- The igloos are built with a tinted reflective mirror-glass, so the visibility is quite low. When it's dark outside and the lights are on in the igloo, the visibility is better from the outside perspective. However, every igloo has curtains which ensure the peaceful feeling anytime. The toilet and shower area are manufactured with metal and is fully private. The igloos are in a peaceful and private area surrounded by nature, and therefore there is no traffic or passers-by.
- Unfortunately we do not serve breakfast. Mostly guests prepare the breakfast by themselves. There is a cooking area in igloo: fridge, cooking plates, micro wave, coffee machine (hot water), pot and frying pan and tableware for four persons. Coffee beans, sugar, creamer, and tea bags include the accommodation. Guests can also have breakfast at a local restaurant (3 km from the igloos). We recommend booking breakfast in advance.
