

## **Canada, British Columbia Nature cruise on Vancouver Island**

**From € 6 005  
7 days / 6 nights  
Summer 2025**

**Set off on a British Columbia adventure aboard the Cascadia to explore the wild and unspoilt coastline of Vancouver Island. Observe exceptional wildlife, discover secluded beaches and enjoy a unique experience in harmony with nature**

This trip is for those who like to venture off the beaten track. It explores a mostly un-roaded area. You'll walk through the rainforest, beach-combing on the sand, boat into wild creeks that empty into the sea, and cruise around Brooks Peninsula, which juts out almost to the offshore continental shelf.

Highlights include the Brooks Peninsula (a glacial refugium), Solander Island (home to puffins), Kyuquot Sound (with sea otters and the village of Kyuquot), lush inlets and sandy beaches, as well as a cruise around the northernmost tip (Cape Sutil) and on the protected eastern coast.

Seven miles off Brooks, the coastal world changes to the oceanic one, and on a fair day you might cruise to the shelf, where the ocean turns from green to blue, and wildlife goes to feed in the upwelling (whales, seabirds, and dolphins).

Thanks to special permits and collaborations with First Nations, you can access unspoilt areas and share unique moments with the locals.

If you're looking for an immersive experience off the beaten track, let our passionate team guide you on an adventure that combines exploration, discovery and respect for nature.
